

CLAIMS

- 1 1. A method comprising
2 enabling electronic posting of a performance that expresses
3 a position of a party on an issue,
4 storing the posted performance digitally,
5 enabling at least two different individuals at two different
6 locations to observe at least portions of the performance, and
7 enabling each of the individuals to post electronically
8 feedback relating to the persuasiveness of the performance of the
9 party with respect to the issue.
- 1 2. The method of claim 1 in which the position on the issue
2 comprises a legal argument related to a litigation issue.
- 1 3. The method of claim 1 in which the performance includes
2 audio material.
- 1 4. The method of claim 1 in which the performance includes
2 graphical material.
- 1 5. The method of claim 1 in which at least part of the
2 performance is posted from a telephone.
- 1 6. The method of claim 1 in which the two different
2 individuals observe the performance at two different times.
- 1 7. The method of claim 1 in which the performance is
2 delivered as streaming digital information to the individuals.

1 8. The method of claim 1 in which the feedback is posted in
2 the form of email or responses given through a website.

1 9. The method of claim 1 in which the electronic posting of
2 the performance includes uploading graphical information.

1 10. The method of claim 1 in which the electronic posting of
2 the performance includes posting of timing information useful in
3 synchronizing audio material and graphical material.

1 11. The method of claim 1 also including analyzing the
2 feedback from the individuals.

1 12. The method of claim 1 in which the individuals comprise
2 jurors.

1 13. The method of claim 1 also including
2 enabling the designation of groups from which the
3 individuals are to be drawn.

1 14. A method comprising receiving by telephone, a spoken
2 legal argument, storing the argument as a digital file, making the
3 argument available electronically to users at different locations as
4 streaming media for performance to the users, and receiving
5 feedback from individuals at different locations with respect to the
6 persuasiveness of the argument.

1 15. A method comprising
2 enabling electronic posting from a telephone of a performance that
3 expresses a legal argument of a party on a litigation issue, the

- 4 performance including at least an audio presentation and graphic
5 material,
- 6 storing the posted performance digitally,
- 7 enabling at least two different individuals at two different locations
8 to observe at least portions of the performance at two different
9 times, the performance being observed in the form of streaming
10 digital information,
- 11 enabling each of the individuals to post, by email or through a
12 website, feedback relating to the persuasiveness of the
13 performance of the party with respect to the issue, and
- 14 analyzing the feedback from the jurors.
